

ARCH CASING EXPRESS ORDER FORM

1. PROFILE: _____ . Custom sizes and profiles require a CAD file or a traced image of the profile on a sheet of paper with dimensions included.
2. WOOD SPECIES: _____ .
3. ARCH TYPE: ___HALF CIRCLE. ___CIRCLE. ___ELIPSE (ellipse's require a template or manufacturers cad file. Cad file is preferable.)
4. Measurements: _____ . Half circle and circle require diameter. Double check height on half circle for accuracy. Radius is half the distance of the widest point of the circle.

5. Reveal Size: _____. This is the distance from inside jamb plain to inside edge of casing. Check your profile on the hinge side; give enough distance to clear the butt of the hinges on door opening. Normally 1/8" to 1/4" is the norm.
